[Note]　1. In schools with a daytime and nighttime enrollment system, record data separately for daytime and nighttime courses.

2. If a change occurs to the admissions quota or transfer students admissions quota related to currently enrolled students, note this in the "Note" column. Increases in admissions capacity over a set period (short term recruitment drives) should be described specifically the "Note" column.

3. Create a table with up to sixth year for medical, dental and veterinarian (or related) schools.

4. When a transfer student admissions quota has been set, enter that year in which transfer students are accepted in the Note column.

5. In the B/A column, round up at the second decimal place.

6. Create a table similar to those created for schools for correspondence courses, specialized courses and separate courses.

[Note: KG]　Because students select their department from the second year of their studies at the School of Policy Studies, (For admissions since FY 2009) enter "Before selecting a department" for students that have not yet selected a department.
