[Note] 1. In principle, organize information by school and graduate school.

2. Enter a name for each room which clearly indicates the purpose of the room in the "Room Name and Purpose" column.
3. When a room is used by multiple schools and graduate schools or shared with a jointly established junior college, enter the name of all such entities in the "School/Graduate School Using the Room" column and do not record the same facility in duplicate in the table.
4. In addition, record language laboratories, computer laboratories, video audio rooms and other rooms with audiovisual equipment in the "School/Graduate School Using the Room" column.
5. When a facility is used for general education, note this in the "School/Graduate School Using the Room" column.
6. When a room is equipped such that it can be used as a training room, but it is primarily used as a lecture hall or seminar room, it may be included as a lecture hall or seminar room in the previous table "11 The Area and Size of Lecture Halls and Seminar Rooms in Each Undergraduate and Graduate School." In this case, always enter "duplicate" in the "Note" column when recording the facility in this table.
